Monaco, 5 October 2020

**Object: 8th International Workshop on Lung Health – Treatable Traits: a look forward -
Virtual edition live from Milan - 13 – 16 January 2021**

Dear Faculty Member, dear Abstract Submitter, dear Participant, dear Partner,

The evolution of the Covid-19 Epidemic and the increasing travel restrictions, are forcing the Presidents of the 8th International Workshop on Lung Health to reconsider the format of the congress.

In order to make available the programme to all the interested professionals in Europe and abroad that may be facing challenges to attend the physical event, the Organising and Scientific Committee started working on the **overall programme to adapt it to a virtual format.**

Furthermore, to maintain, wherever possible, a form of *face to face* interaction, we plan in having some of the faculty members and participants who are able and willing to travel, to meet in **Milan, from where all the sessions will be broadcasted.**

The live sessions will take place on the same dates planned for the congress with the adding of an additional day, and precisely **from 13th to 16th January 2021.**

Rising Stars, Posters (in the form of E-poster) live discussions will be preserved, while a change of format is expected for the **FuHeL (Future Health Leaders) programme.**

Detailed information regarding the revised scientific programme will soon be available on the congress website.

In the meanwhile we kindly remind you that the **Call for Rising Stars** deadline has been postponed to October 19th, 2020 while the **Call for Abstracts** deadline is now set for November 2nd, 2020. We invite you to submit and encourage the submission of the valuable works.

Remaining at your entire availability for any further information or assistance you may need, we sincerely thank you for your understanding and resilience.

Warm Regards,

On behalf of the Organising and Scientific Committee,

The Organising Secretariat,
