Welcome

The Egyptian Society of Chest Diseases and Tuberculosis is deeply honored to invite you as a distinguished guest to share and attend the 64th anniversary meeting, which is the main event of the year for chest diseases in Egypt.

This year will be truly an outstanding gathering for the Middle East and the Arab World, of continuous giving, caring and partnership. The annual meeting is the biggest event for Pulmonologists in Egypt and the Arab World and we promise to make this year truly special. Our meeting aims at updating chest physicians with recent Knowledge given by highly experienced professors.

We hope that our colleagues in the different organizations in Egypt and Arab area share with their scientific material, and interact with our guest faculties which will include eminent international, Arab and Egyptian scientists, with the prospect of exchange of knowledge for better continuous education and optimum patient care.

The Egyptian Society of Chest Diseases & Tuberculosis (ESCT) conference is an esteemed medical event held annually in Egypt since 1959. The conference is dedicated to the field of chest diseases and tuberculosis, bringing together renowned experts, researchers, and healthcare professionals from Egypt and around the world.

It serves as a platform for the exchange of knowledge, the presentation of cutting-edge research, and the dissemination of advancements in the diagnosis, treatment, and prevention of chest diseases and tuberculosis.
