# Welcome

## Message

The Egyptian Society of Chest Diseases and Tuberculosis is deeply Honored to Invite you as a distinguished guest to share and attend the 61<sup>st</sup> Anniversary meeting,

This year will be truly an outstanding gathering for the Middle East and The Arab World, of Continuous giving, caring and partnership

The annual meeting is the biggest event for pulmonologists in Egypt and Arab World and we promise to make this year truly special . our meeting aims at updating chest physicians with recent knowledge given by highly experienced professors

We hope that our colleagues in the different organization in Egypt and Arab area share with their scientific material and interact with our guest faculties which will include eminent international Arab and Egyptian Scientists, with the Prospect of Exchange of Knowledge for better continuous education and optimum patient care.

President of Congress & Society  
**Prof. Mohamed Awad Tageldin**  
Prof. of Pulmonology Ain Shams  
University

Secretary General of the Congress  
**Prof. Mohamed Sedky**  
Head of Chest Department Azhar  
University

Head of Organising Committee  
**Prof. Gehan Elassal**  
Prof. of Pulmonology Ain Shams  
University

## *Board of the Society*

**Prof. Mohamed Awad Tag El Din**  
President

**Prof. Maysa Sharaf El Din**  
Vice President

**Prof. Samiha Ashmawi**  
General Secretary

**Prof. Ibrahim Radwan**  
Treasurer

**Prof. Abbas El-Maraghy**  
Member

**Prof. Hussein Abul Elyazid**  
Member

**Prof. Mohamed Abdel Sabour**  
Member

**Special warnings and precautions for use:** As with all injectable vaccines, appropriate medical treatment and supervision should always be readily available in case of an anaphylactic event following the administration of the vaccine. Influvac Tetra should under no circumstances be administered intravascularly. Anxiety-related reactions, including vasovagal reactions (syncope), hyperventilation or stress-related reactions can occur following, or even before, any vaccination as a psychogenic response to the needle injection. This can be accompanied by several neurological signs such as transient visual disturbance, paraesthesia and tonic-clonic limb movements during recovery. It is important that procedures are in place to avoid injury from faints. Antibody response in patients with endogenous or iatrogenic immunosuppression may be insufficient. Interference with serological testing. This medicine contains less than 1 mmol sodium (23 mg) per dose, i.e. essentially 'sodium-free'. This medicine contains potassium, less than 1 mmol (39 mg) per dose, i.e. essentially 'potassium-free'.

2020

Royal Maxim Palace Kempinski Hotel  
New Cairo, Egypt

22<sup>nd</sup> October 2020

Hall A

Session

12:00 – 13:00

## Intervention Pulmonology

Chairpersons

Prof. Adel Khattab  
Prof. Gamal El Kholy  
Prof. Mohamed Awad Ibrahim  
Prof. Ahmed El Hussein  
Prof. Nabil El Deberky

- 12:00 -12:15 EBUS & Navigation: what you need to know?  
**Prof. Ebtsam Islam, Professor of Pulmonology and critical care, TTUHSC, USA**
- 12:15 -12:30 The Future of Thoracic Surgery in COVID-19 Era  
**Prof. Robert George, Professor of thoracic surgery university college London Hospitals, UK**
- 12:30 -12:45 New innovations in bronchoscopic treatment of COPD: targeted lung denervation & bronchial Rheoplasty  
**Prof. Ashraf Madkour, Professor of Pulmonology, Ain Shams University**
- 12:45 -13:00 Interventional pulmonology: past, present & future  
**Prof. Emad Korraa, Professor of Pulmonology, Ain Shams University.**

13:00 – 13:30

Coffee Break

Hall A

Session

13:30 - 14:30

### Pulmonary Hypertension in Special Situations

Chairpersons

Prof. Ahmed El Gazzar  
Prof. Ayman Farghaly  
Prof. Medhat Abdel Khalek  
Prof. Hanan El Shahat  
Prof. Mostafa Wahba

- 13:30 -13:45      Updates and Overview of PAH  
**Prof. Youssef Amin, Professor of Pulmonology, Cairo University**
- 13:45 -14:00      ICU considerations in patients with PAH  
**Prof. Medhat Abdel Khalek, Professor of Pulmonology, Cairo University**
- 14:00 -14:15      PAH associated with liver diseases.  
**Prof. Reem El Korashy, Professor of Pulmonology, Cairo University**
- 14:15 -14:30      PAH associated with connective tissue diseases.  
**Prof. Marwa Abdel Rady, Military Academy**

RUPATADINE

# Vaxato®

Rivaroxaban 10, 15, 20mg

**Vaxato®** has proven efficacy in prevention of stroke in **AF** patients

**Vaxato®** has proven efficacy in treatment and prophylaxis of recurrent **PE** and **DVT**

**Vaxato®** has proven efficacy in extended treatment of **VTE**

**Vaxato®** has a lower incidence of ICH\* and fatal bleeding than Warfarin

**Vaxato®** needs no **INR** monitoring

**Vaxato®** has **Fewer** drug/food interactions compared with **Warfarin**

## Indications:

- Prevention of stroke and systemic embolism in adult patients with Non-Valvular Atrial Fibrillation (NVAF) with one or more risk factors
- Treatment of DVT or PE
- Prevention of recurrent DVT and PE in adults

## Dosage and administration:

	Time period	Dosing schedule	Total dose/day
Prevention of stroke and systemic embolism for NVAF	Day 1 onwards	20mg once daily with food	20mg
	Cr.Cl (15-49) ml/min	15mg once daily with food	15mg
Treatment of DVT and PE, and prevention of recurrent DVT and PE	Day 1 - 21	15mg twice daily with food	30mg
	Day 22 onwards	20mg once daily with food	20mg
	Day 22 Cr.Cl (15-49) ml/min	15mg once daily with food	15mg
Extended prevention of recurrent DVT and PE	Following completion of at least 6 months therapy for DVT or PE	10mg or 20mg once daily with food	10mg or 20mg
In Hospitalized Acutely ill Medical Patients at risk for thromboembolic complications who are not at high risk of bleeding during hospitalization and continued after discharge <sup>10</sup>	31-39 Days	10mg once daily with or without food	10mg
